REPORT OF COUNCIL,

To the Members, at the Annual General Meeting, Wednesday, February 25th, 1880.

I. SESSION 1878–79.

PUPILS AND FEES.

The entire number of Pupils during this Session was 1907, being an increase of 305 on that of the preceding Session, due chiefly to the admission of Women to Classes in the Faculties of Arts and Laws and of Science. Of these Pupils, 1097 were Students in the College, and 810 Pupils in the School. Of the Students, 366 belonged to the Faculty of Medicine, 99 being new Students: in the Faculties of Arts and Laws and of Science there were 731 Students, 527 being new Students. The largest number of Boys in the School in any one Term was 660.

The Fees received (exclusive of those for Clinical Instruction) amounted to £32,379 7*s.* 6*d.*, being £2700 12*s.* 6*d.* more than in the Session 1877–78. This sum consists of the following items:—Fees for attendance on the Classes of the Faculty of Medicine, £7569 17*s.* 6*d.*; Fees for attendance on the Classes of the Faculties of Arts and Laws and of Science, £9107 14*s.* 0*d.*; School Fees, £15,733 4*s.* 0*d.* The total payments to Professors, Teachers, and Masters amounted to £22,188 15*s.* 1*d.* In addition to the above-stated amounts, the sum of £2462 2*s.* was received for Clinical Instruction in the Hospital, making a total of £10,031 19*s.* 6*d.* paid by Students of the Faculty of Medicine in the Session.

SCHOOL.

The returns which have been laid before the Council show that the discipline of the School remains in the same satisfactory state as in former years.

It is proposed to erect a covered Gymnasium for the use of the School, and the Head Master will be glad to receive subscriptions for this purpose. About £500 has already been subscribed. It is hoped that the Building will shortly be commenced.

The Juliana de Rothschild Prize of £20 for the candidate from the School who should obtain the highest place in the Honours Division at the June Examination for Matriculation in the University of London, was given last year by Mrs. Isaac Cohen in memory of her daughter, the late Baroness Mayer de Rothschild. It was awarded to Arthur Berry, who gained the second place in the Honours Division. Since Mrs. Cohen's death her daughter, Miss Lucy Cohen, has offered to continue giving the Prize from year to year.

Sir Barrow Ellis has offered a Prize of £5 for the encouragement of the study of Geography.

The following Table shows the number of boys in the School in each of the three Terms of the last five Sessions. In the first Term of the present Session the number was 667 :—

	1st Term.	2nd Term.	3rd Term.	Average for the year.
1874–75.....	560	582	589	577
1875–76.....	607	622	640	623
1876–77.....	594	616	615	608
1877–78.....	638	666	669	658
1878–79.....	659	630	660	650

From the Tables in the Vice-Master's Report it appears that out of a total of 810 boys, 85 were entered in the Black Book last Session, the total number of entries being 116.

A list of distinctions lately obtained by former pupils of the School is placed at the end of the Report. This list is selected from a larger one compiled by the Vice-Master and prefixed to the "School Honour Lists."

II. GENERAL FINANCES.

The surplus of receipts over expenditure for this Session was £85 5*s.* 11*d.*

This surplus has been applied by the Council to the reduction of the debt on the last additon to the South Wing from £1403 0*s.* 7*d.* to £1317 14*s.* 8*d.*

III. THE CURRENT SESSION.

The entries of Students to February 1st have been as follows :—In the Faculty of Medicine, 320, of whom 67 are new Students ; in the Faculties of Arts and Laws and of Science, 675, of whom 396 are new Students : in the School, in Michaelmas Term, 667, of whom 119 were new pupils ; in the present Term, 635, 65 being new pupils. Compared with the entries to the same date last year, these returns show an increase of 3 in the Medical Classes, and of 58 in the Arts, Laws, and Science Classes ; in the School an increase of 8 in the Michaelmas Term, and of 5 in the present Term.

The increase in the number of new Medical Students this Session is 3 ; in the number of new Students in the other Faculties there is a decrease of 48.

The College Fees received to February 1st are £4568 11*s.* in the Faculty of Medicine, and £8523 7*s.* 6*d.* in the Faculties of Arts and Laws and of Science.

In the University of Oxford *Francis Charles Montague* has been placed in the First Class in the Final Classical School, and *Leonard Huxley* has gained a Classical Exhibition at Balliol College.

In the University of Cambridge J. N. Keynes, Fellow of Pembroke College, has been appointed one of the adjudicators of the Cobden Prize.

* Exhibition of £20 per annum for two years. † Prize of £5.
‡ Obtained the number of marks qualifying for a Prize.

Mr. T. E. Scrutton has gained the Senior Whewell Scholarship of £100 for four years.

At Trinity College the Vidil Prize, given triennially for proficiency in the French language and literature, has been awarded to *John Marshall*, whose name has since appeared in the list of Wranglers.

RETIREMENT OF LORD BELPER.

In December 1878 Lord Belper stated that he did not wish to be nominated for re-election, as he felt that his advanced age and the distance of his usual residence would prevent his giving adequate attention to the important questions that were likely to come under the consideration of the Council.

Accidental circumstances having prevented the nomination consequent on his retirement from being made in time to give the notices required under the Bye-laws, Lord Belper subsequently acceded to the request that he would allow himself to be put in nomination again in order to allow time for the necessary arrangements, on the understanding that as soon as these were completed, he should be relieved of his duties.

In accordance with this arrangement, Lord Belper and Lord Kimberley resigned their offices in April; and, in conformity with the Bye-Laws, an Extraordinary General Meeting of the Members of the College was held on Saturday, May 3rd, for the purpose of filling the vacancies thus occasioned, when Lord Kimberley and the Hon. Mr. Justice Fry were proposed by the Council for election as President and Vice-President respectively, and were unanimously elected. It was then resolved unanimously:

> "That the warmest acknowledgments of this Meeting be tendered to Lord Belper, LL.D., F.R.S., for the great services he has rendered to the College during his long connexion with it, for the unvarying kindness and courtesy he has displayed to every one belonging to it, and for the great ability he has devoted to its interests."

On receiving the report of the proceedings of the Extraordinary General Meeting, the Council adopted the following resolution:—

> "That it was with the most sincere regret that the Council received from Lord Belper the intimation of his wish to retire from the Office of President. The termination of his official connexion with the College marks an important epoch in its history. The College now loses from its governing body the last of those who by their support and exertions in its earliest years placed it on a firm basis and enabled it to take the high position which it now occupies. The Council desire to record their sense of the great loss which they will sustain by the absence of one who has so long presided over their Meetings with uniform courtesy, and has guided their deliberations with matured and impartial judgment. The Council are deeply sensible of the debt of gratitude which the College owes to Lord Belper for the amount of time and attention which he has devoted to its affairs, and for his unfailing exertions in its behalf whenever he could promote its interests or forward the objects for which it was founded."

DEATHS OF MEMBERS OF THE COLLEGE.

The deaths of the following Members of the College have been reported:—

Mr. Warner Atkinson.
Sir William Boxall, R.A.
Dr. Frederick Brown.
Right Hon. Sir William Erle.
Mr. P. Le Neve Foster.
Dr. Tilbury Fox.
Mr. Joseph Freeman.
Rev. John Grundy.
Mr. George Hadfield.
Mr. George Long.
Mr. Richard Marshall.
Mr. William Martin.
Sir William Stirling-Maxwell.
Mr. Charles Baker Moody.
Sir Antonio Panizzi.
Mr. John Rees.
Mr. John Towgood.
Mr. James Vallance.
Mr. W. R. Wills.

PROFESSORSHIPS.

The illness of Professor Clifford, to which reference was made in the last Report, resulted in his death on March 3rd. The vacancy thus caused in the Professorship of Applied Mathematics has not been filled up; but Mr. M. J. M. Hill and Dr. O. J. Lodge have been appointed Assistant Professors of Mathematics and of Physics respectively, in order to provide for the development of the teaching of these subjects.

The Chair of Roman Law, left vacant by the appointment of Professor Hunter as Professor of Jurisprudence, has been assigned to Mr. Edmund Robertson.

Professor Wayte having sent in his resignation in June, the Council requested Professor Goodwin to take charge, during the present Session, of the Greek Classes as well as his own. They have since accepted his proposal to exchange at the close of the Session the Chair of Latin for that of Greek, and are now taking measures to fill the vacancy which will occur in the Latin Professorship.

The Professorship of Mechanical Technology has been combined with that of Engineering, Prof. Kennedy having undertaken to deliver courses of lectures on special branches of the former science, in addition to the technical instruction usually given in the Engineering course.

At the close of the Summer Session, Sir William Jenner retired from his Professorship, and received the title of Emeritus Professor of Medicine and Clinical Medicine.

Professor Maudsley has resigned the Chair of Medical Jurisprudence, and has been succeeded by Dr. G. V. Poore, a Fellow of the College and late Assistant Professor of Clinical Medicine.

EXTENSION OF THE BUILDING.

The contract for the Extension of the North Wing was executed on June 11th. The works are making satisfactory progress, and it is expected that the Building will be opened at the beginning of next Session. The cost, including fittings, will be about £35,000, while the

subscriptions have only just reached £20,000. The Council therefore hope that the friends of liberal education will assist them in their endeavour to raise the sum required to meet the deficiency before the work now in hand is completed.

TECHNICAL EDUCATION.

A grant by the City and Guilds Institute of £400 per annum for the advancement of Technical Education has been applied to the endowment of the Chairs of Chemical and Mechanical Technology.

With the view of meeting the requirements of the increasing number of Students wishing to study the scientific side of Technical subjects, Professor Kennedy has delivered courses of Lectures on pumps and pumping engines, and on the machinery used in the manufacture of iron and steel.

The Engineering lectures are now supplemented by practical work in the Engineering Laboratory.

Professor Graham's programme of lectures for this Session includes Heating and Lighting, Dyeing and Calico Printing, the Chemistry of Brewing, and Metallurgy.

These courses have been well attended. The Laboratory also is well filled, in which Practical instruction in Chemical Technology is given under the direction of the Professor.

SCIENCE SCHOLARSHIPS.

The Council having been advised by the Senate that it is the intention of the Commissioners for the Exhibition of 1851 to devote a considerable sum of money to the establishment of Scholarships for the purpose of enabling the most promising Students in provincial Science Classes to complete their studies either in provincial Colleges or in the institutions of the Metropolis, have addressed a Memorial to the Commissioners, requesting that University College may be recognized as one of the metropolitan institutions at which these Scholarships may be tenable.

MEDICAL ENTRANCE EXHIBITIONS.

The value of these Exhibitions will for the future be raised to £100, £60, and £40 respectively; they will be tenable for one year only, and they will be awarded for proficiency in Science, the subjects of examination being those of the Preliminary Scientific Examination of the University of London.

ADMISSION OF WOMEN.

The experience of the past Session has fully justified the step taken by the Council in admitting Women to the Classes of the Faculties of Arts and Laws and of Science. A large number continue to avail themselves of the opportunities thus afforded.

INDIAN CIVIL SERVICE.

The Secretary of State for India has acceded to a request that Selected Candidates for the Civil Service of India may pass their probationary period at University College, residing either in University Hall, or with one of the authorized Professors, on the understanding that the Principal of the Hall or the Professor of the College, as the case may be, will undertake responsibility for the conduct of the Candidates who may resort to University College, and enforce rules of discipline upon them.

BARLOW LECTURES.

In accordance with Dr. Barlow's Will, a course of twelve Lectures on Dante's 'Divina Commedia,' free to both sexes, was given in this College last Spring by Mr. Charles Tomlinson, F.R.S., who will deliver a similar course this year.

MORRIS BEQUESTS.

Schemes for the administration of these Bequests to the College and the Hospital have been settled by the Charity Commissioners. The share which falls to the College enables the Council to offer a Bursary of £25.

JODRELL ENDOWMENT OF COMPARATIVE ANATOMY.

Mr. T. J. Phillips Jodrell, who has in former years been a great benefactor to the College, having endowed the Professorship of Physiology with the sum of £7500, and having contributed £1000 to the Building Fund, in the autumn of 1878 communicated his intention to Lord Belper, then President of the College, to endow the Professorship of Zoology and Comparative Anatomy with a further sum of £7500, upon terms similar to those on which the endowment of the Jodrell Professorship of Physiology is held by the College. Before his intention could be fully carried into effect, Mr. Jodrell became seriously ill, and unable to transact business. This liberal benefaction has now been carried out, in accordance with the original design, under the sanction of the Court, through the cordial and active help of the near relations of Mr. Jodrell.

CASTS FROM THE ANTIQUE.

Mr. Marcet has presented to the College a most valuable cast of a torso of Venus, the original of which is now in the Museum at Geneva. A cast of a torso of a warrior has also been presented by M. Etienne Duval, son-in-law of Mr. Marcet. The casts have been placed in the Slade School.

RETIRED MASTERS' FUND.

Mr. Horton, the Vice-Master of the School, has presented the sum of £400 as the foundation of a Trust Fund to be held by the Council for the benefit of retired or invalid Masters of the School. The Council have tendered to Mr. Horton their hearty thanks for his liberal donation, and for this expression of his interest in the welfare of the School, to which he has rendered so much valuable service.

SHARPEY LIBRARY.

A valuable Catalogue of this Library has been compiled and presented to the College by Professor Sharpey.

GENERAL LIBRARY CATALOGUE.

This Catalogue, which includes the Graves, the Morris, and various other collections, is now completed, and has been published in three volumes, at the price of seven shillings and sixpence.

The total cost of preparation, printing, &c., has been nearly £900, of which sum £634 has been paid out of the donation of £1000 given by Mr. Samuel Sharpe for the purpose.

A Supplemental volume is in preparation.

THE LIBRARIES.

The principal donations of books during the past year were from the following:—Lords Commissioners of the Admiralty, Secretaries of State for India and for War, Trustees of the British Museum, Asiatic Society of Bengal, Society of Antiquaries, of Arts, of Engineers, of Telegraph Engineers, Institution of Civil Engineers, of Engineers and Shipbuilders in Scotland, Iron and Steel Institute, Royal Institute of British Architects, the Clinical, Medical, Obstetrical, Pathological, Pharmaceutical, and Royal Medical and Chirurgical Societies, the New Shakspere, Physical, Royal Astronomical, Royal Cornwall Polytechnic, Royal Microscopical, Statistical, Manchester Statistical, and Zoological Societies, the Royal College of Surgeons, the Royal Institution, the Quekett Microscopical Club, Professors Heath, Hill, Hunter, Marshall, Maudsley, Morley, Roberts, G. C. Robertson, and Sharpey, Drs. Berkart, Goodman, and Gowers, T. Ely, J. G. Graham, F. Marcet, A. Prevost, S. Sharpe, J. F. Streatfeild, and C. Tomlinson, Esqs., Mrs. Clifford, and the late Rev. J. C. Means.

PEEL MEMORIAL FUND.

The income of this Fund in 1879 was expended in the purchase of books &c. presented to the Bewdley Institute, the Burnley Mechanics Institution, the Hull Literary and Scientific Mechanics' Institute, and the Wisbech Working Men's Club and Institute.

The Balance of the Dividends now in hand is £54 14*s.* 11*d.*

EXTRACT FROM HOSPITAL REPORT.

"The following Legacies and awards by executors have been received during the year :—

"Louisa, Lady Goldsmid, widow of the late Sir Francis Goldsmid, Bart., has recently shown her deep and continued interest in this Hospital, of which her late husband was so generous a benefactor, by presenting the handsome sum of £600 for the endowment of a Cot in the Children's Ward, to be named "The Harriet Henley Cot," and in addition £100 for the general purposes of the Hospital.

"The Committee of the Metropolitan Hospital Sunday Fund awarded to University College Hospital, from their 1879 Collection, £871 6*s.* 3*d.*, being £66 3*s.* 9*d.* less than the sum received in the previous year.

"The Committee of the Hospital Saturday Fund have also granted to this Hospital, from their 1879 Collection, £104 9*s.* 9*d.*

"The Committee have decided this year not to present to the Governors tables showing the cost of the beds &c., and the number of Patients treated, as for purposes of comparison they would be useless, the Hospital having been closed for seven weeks in the autumn.

"Mr. Alderman Fowler presided at the Festival held on Tuesday, 6th May, 1879, on which occasion the amount subscribed was £1106. The Dinner was well attended by past Students of the Hospital, together with the present Staff. The Festival for this year will be held at Willis's Rooms on Thursday, 11th March, when H.R.H. Prince Leopold, K.G. (one of the Vice-Patrons of the Hospital), has shown the deep interest in the welfare of the Hospital felt by the Royal Family by graciously consenting to preside.

"The Committee are glad to be able to state that the duties of Resident Medical Officer are still carried out by Mr. Geo. C. Henderson, M.B., M.R C.S., and those of Surgical Registrar by Mr. A. Q. Silcock, M.B., B.S."
